

Year 2010 Hall of Fame Inductee

Bowling Performance

History

Bob started bowling in the LBA during the 1967-68 season with a 140 average. As the old lacquer lanes gave way to current conditions, Bob steadily adapted to the new technology in both bowling balls and lane surface. In the 1980-81 season Bob established a 208 average, his first season with a 200 average. LBA records list Bob's 208 average as the 10th highest average for bowlers during the 1980-81 season.
